SUMMARY

Aspiring Backend Developer with hands-on experience in Python, Django, and Django REST Framework. Built full-stack web applications with modular backend architecture and REST APIs. Currently strengthening Data Structures and Algorithms and seeking internship opportunities to apply and improve backend development skills in real-world systems.

SKILLS

- **Languages:** Python, JavaScript (basic)
- **Backend:** Django, Django REST Framework
- **Database:** SQLite
- **Frontend:** HTML, CSS
- **Tools:** Git, GitHub, VS Code
- **Concepts:** REST APIs, Authentication, CRUD operations, MVC architecture

PROJECTS

FinanceDaily – Personal Finance Management System

Django, DRE, SQLite

- Built a full-stack web application to track income, expenses, and budgets
- Designed modular Django architecture with separate apps (users, budget, records, dashboard)
- Developed REST APIs using Django REST Framework for CRUD operations
- Implemented user authentication for secure and personalized data access
- Created dashboard for visual financial overview and tracking

Key Features:

- User authentication system
- Income and expense tracking
- Budget management system
- RESTful API architecture
- Modular backend design

GitHub: github.com/algowithsachin

DATA STRUCTURES & ALGORITHMS

- Solving problems on arrays, strings, hashing, and two pointers
- Practicing on LeetCode and GeeksforGeeks
- Focused on improving problem-solving and coding interview skills

EDUCATION

Bachelor of Technology – Computer Science Engineering

Gwalior Institute of Information Technology

2023 – 2027
